

Is William Schnobelen Really John Todd?

This is a quick, easy one to answer. **No**, I (Bill Schnobelen) **am not, nor ever have been John Todd.**

To the best of my understanding, Mr. Todd (now deceased) was born in 1951 and thus would have been a couple years younger than I.

My life has been rather thoroughly documented, both by others and myself.¹ When Mr. Todd was at the height of his ministry in the 1970's, I was a witch and (later) also a Satanist. I did not even get Born Again until 1984. My ministry did not really start until 1986.²

While our stories are similar in some superficial ways and we are approximately the same age, Todd was obviously way better looking than I.
